Quase tudo o que o cliente de uma plataforma cripto de Singapura pode esperar está escrito nos termos de serviço da plataforma. A análise da propriedade no Capítulo I diz ao cliente que tokens podem ser objeto de propriedade. A análise do trust no Capítulo II diz ao cliente se a plataforma os mantém por conta dele. Todo o resto, desde o preço pelo qual uma ordem é executada até as circunstâncias em que a plataforma pode bloquear uma conta, reverter uma operação ou encerrar uma posição, é contrato. O direito contratual de Singapura é o direito contratual inglês com modificações legais locais. A única decisão de segunda instância que o aplica a uma exchange cripto, *Quoine v B2C2*, merece estudo atento, porque mostra como um tribunal aborda termos padrão quando os valores são altos e a tecnologia pouco familiar.
